

Research:

The Kessler Institute, in collaboration with the Kessler Foundation, is involved in important research that will help to improve patient care and outcomes. Any study that is conducted is approved and monitored by an Institutional Review Board (IRB), a group of people who ensure that research is performed confidentially, safely and ethically. For more information, please contact us at research@kessler-rehab.com.

Thank you.

TITLE	DESCRIPTION
Neuropsychological Predictors in Community Re-entry Following Cognitive Rehabilitation	Results of the study will contribute to evidence based practice as well as contribute to the research exploring CRP treatment efficacy. Participating center: West Orange campus.
